# WE ARE KOLBE

For over 70 years, **Kolbe Foodtec** has been your partner for **high-quality** meat processing equipment. We exclusively design and manufacture our products at our facility in Elchingen. This allows us to oversee every individual production process and maintain our **quality standards** at the **highest level**.

Our wide range in **food processing** provides **optimized solutions** to businesses of **all sizes and types** in the meat processing industry, thanks to innovative ideas, perfectly tailored technology, and the highest hygiene standards.

We are constantly evolving as well. Our in-house development, production, and engineering capabilities enable us to swiftly address the **unique needs and requirements** of our customers and partners. As a result, we can offer specially customized solutions tailored to your operation – **worldwide**.

The best quality Made in Germany - that's **KOLBE FOODTEC**.

# OUR SERVICE

# INSTALLATION AND INSTRUCTION

Our technicians will help you with the installation of your new machine and will make sure, that it is ready to use right after the delivery. We also gladly offer instructions for the most important functions, the cleaning and the proper usage of our machines.

# REPAIRS AND MAINTANENCE

For repairs and maintanence our service-technicians and selected service-partners are gladly there to help you with their expertise and knwo-how.

# YOUR SATISFACTION: OUR PRIORITY

In addition to our in-house production and global distribution of our meat and fish processing machines, we also provide our services in various other areas related to our machines. Our qualified service personnel and our partners support you worldwide and are more than happy to assist you with all your needs and questions.

Whether it's installation and instruction, repairs and maintenance, or general consultation, our team specializes in addressing individual requirements and offering you the best possible solutions. We place great importance on not only providing you with top-notch machines but also delivering the best customer service. Your satisfaction is our priority.

# QUESTIONS AND CONSULTATION

Our technical service and sales staff will gladly help you with the selection of the right machine that meets all of your needs and requirements. This also includes all upgrades and retrofittings of the machines. Together we will always find the best solution for you.

### K550

**Article number** Left sided - **2070000** Right sided - **2070030** 

Wheel diameter	220	mm
Saw band measurements	1820 x 16	mm
Blade speed	18	m/s
Cut height passage (max.)	230	mm
Cut side passage (max.)	187	mm
Cutting stroke (max.)	201	mm
Motor capacity	1,1	kW

### **EQUIPMENT EXTRAS**

Stainless steel base frame (fixed) / Stainless steel base frame (mobile) in different sizes (normal & high version)

## **K**330

Article number Left sided - 2430000 Right sided - 2430030

Wheel diameter	300	mm
Saw band measurements	2490 x 16	mm
Blade speed	22	m/s
Cut height passage (max.)	311	mm
Cut side passage (max.)	282	mm
Cutting stroke (max.)	297	mm
Motor capacity	1,5	kW

### **EQUIPMENT EXTRAS**

Mobile version (with 2 swivel and 2 fixed castors)

Article number
Left sided - 2330000
Right sided - 2330030

Wheel diameter	260	mm
Saw band measurements	2170 x 16	mm
Blade speed	19	m/s
Cut height passage (max.)	252	mm
Cut side passage (max.)	228	mm
Cutting stroke (max.)	239	mm
Motor capacity	1,1	kW

### **EQUIPMENT EXTRAS**

Mobile version (with 2 swivel and 2 fixed castors)

## **K330S**

Article number Left sided - 2430010 Right sided - 2430040

Wheel diameter	300	mm
Saw band measurements	2490 x 16	mm
Blade speed	22	m/s
Cut height passage (max.)	311	mm
Cut side passage (max.)	282	mm
Cutting stroke (max.)	297	mm
Motor capacity	1,5	kW

### **EQUIPMENT EXTRAS**

Mobile version (with 2 swivel and 2 fixed castors)

### **K**330RS

Article number
Left sided - 2430060
Right sided - 2430070

Wheel diameter	300	mm
Saw band measurements	2490 x 16	mm
Blade speed	22	m/s
Cut height passage (max.)	311	mm
Cut side passage (max.)	282	mm
Cutting stroke (max.)	308	mm
Motor capacity	1,5	kW

### **EQUIPMENT EXTRAS**

Mobile version (with 2 swivel and 2 fixed castors)

## **K4**30

Article number Left sided - 2560000 Right sided - 2560030

Wheel diameter	430	mm
Saw band measurements	3370 x 16	mm
Blade speed	32	m/s
Cut height passage (max.)	403	mm
Cut side passage (max.)	412	mm
Cutting stroke (max.)	413	mm
Motor capacity	2,9 (4,0)	kW

### **EQUIPMENT EXTRAS**

Mobile version (with 2 swivel and 2 fixed castors) / precision fine portioning device / second speed, regulated by inverter / increased motor capacity / bigger table (like K430H) / cutting good shaft

Article number Left sided - 2440000 Right sided - 2440010

Wheel diameter	380	mm
Saw band measurements	3070 x 16	mm
Blade speed	28	m/s
Cut height passage (max.)	346	mm
Cut side passage (max.)	357	mm
Cutting stroke (max.)	361	mm
Motor capacity	2,5	kW

### **EQUIPMENT EXTRAS**

Mobile version (with 2 swivel and 2 fixed castors) / precision fine portioning device / second speed, regulated by inverter

# **K430S**

Article number Left sided - 2560010 Right sided - 2560040

Wheel diameter	430	mm
Saw band measurements	3370 x 16	mm
Blade speed	32	m/s
Cut height passage (max.)	403	mm
Cut side passage (max.)	412	mm
Cutting stroke (max.)	413	mm
Motor capacity	2,9 (4,0)	kW

### **EQUIPMENT EXTRAS**

Mobile version (with 2 swivel and 2 fixed castors) / precision fine portioning device / second speed, regulated by inverter / increased motor capacity

### K430RT

Article number
Left sided - 2560020
Right sided - 2560050

Wheel diameter	430	mm
Saw band measurements	3370 x 16	mm
Blade speed	32	m/s
Cut height passage (max.)	367	mm
Cut side passage (max.)	405	mm
Cutting stroke (max.)	409	mm
Motor capacity	2,9 (4,0)	kW

### **EQUIPMENT EXTRAS**

Mobile version (with 2 swivel and 2 fixed castors) / second speed, regulated by inverter / increased motor capacity

## **K4**30H

Article number Left sided - 2560100 Right sided - 2560130

Wheel diameter	430	mm
Saw band measurements	3700 x 16	mm
Blade speed	32	m/s
Cut height passage (max.)	568	mm
Cut side passage (max.)	412	mm
Cutting stroke (max.)	413	mm
Motor capacity	4	kW

### **EQUIPMENT EXTRAS**

Precision fine portioning device / second speed, regulated by inverter / increased motor capacity / cutting good shaft

Article number Left sided - 2560200 Right sided - 2560230

Wheel diameter	430	mm
Saw band measurements	3370 x 16	mm
Blade speed	32	m/s
Cut height passage (max.)	403	mm
Cut side passage (max.)	412	mm
Cutting stroke (max.)	423	mm
Motor capacity	2,9 (4,0)	kW

### **EQUIPMENT EXTRAS**

Mobile version (with 2 swivel and 2 fixed castors) / precision fine portioning device / second speed, regulated by inverter / increased motor capacity / bigger table (like K440H) / cutting good shaft / integrated conveyor belt (short or long)

Article number Left sided - 2560300 Right sided - 2560330

Wheel diameter	430	mm
Saw band measurements	3700 x 16	mm
Blade speed	32	m/s
Cut height passage (max.)	568	mm
Cut side passage (max.)	412	mm
Cutting stroke (max.)	413	mm
Motor capacity	4	kW

### **EQUIPMENT EXTRAS**

Precision fine portioning device / second speed, regulated by inverter / increased motor capacity

# BANDSAW BLADES

**Article number** Left sided - **6100150** Right sided - **6100160** 

Wheel diameter	430	mm
Saw band measurements	4880 x 20	mm
Blade speed	32	m/s
Cut height passage (max.)	626	mm
Cut side passage (max.)	800	mm
Cutting stroke (max.)	635	mm
Motor capacity	4	kW

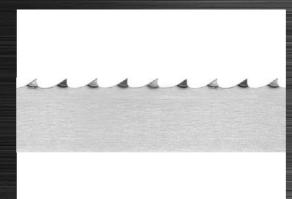

Wheel diameter	430	mm
Saw band measurements	4880 x 20	mm
Blade speed	32	m/s
Cut height passage (max.)	575	mm
Cut side passage (max.)	800	mm
Cutting stroke (max.)	550	mm
Motor capacity	4	kW

### **EQUIPMENT EXTRAS**

increased motor capacity

# COMBI SAWBLADE

The Combi-Sawblades are the default bandsaw blades for our KOLBE bandsaws. Crafted from special steel with impulse-hardened tooth tips, these sawblades are ideally suited for all types of meat, whether frozen or fresh, with or without bones

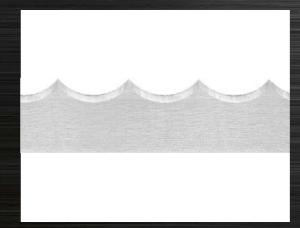

Tooth pitch: 6,0 mm

# FISCH SAWBLADE

hardened tooth tips. These saw blades are ideal for processing all types of fish, both fresh and frozen.

Tooth pitch: 8,5 mm

# WAVE SAWBLADE

The Wave-Sawblades made from special steel have a double cutting bevel and feature a concave serrated edge. The Wave-Sawblade can not only cut boneless fresh meat but is also well-suited for cheese.

Blade thickness: 0,45 mm

All our sawblades are made of high-quality special steel, enabling exceptionally clean and precise cuts. The proper selection of the right saw blades is crucial to achieve the best cutting results. By default, all our bandsaws are equipped with the Comb-Sawblade, which serves as an optimal all-rounder for all types of meat. We are happy to provide advice and recommend the most suitable sawblade for your specific needs in cutting and meat processing.

### ENTERPRISE

The Enterprise cutting system, consisting of a cross knife and perforated plate, convinces by optimal processing of minced meat – whether pure or with additives such as spices or liquids. A distinctive feature of this cutting system is the second grinding process. This results in a very clean and homogeneous cutting profile in the final product. Despite the second pass, the cutting set has only minimal temperature increases.

# UNGER

The Unger cutting system, available as 3- or 5-piece sets, ensures a particularly gentle mincing process. Consisting of a pre-cutter, 1-2 knives and perforated plates, it produces a high-quality cutting profile with an appealing texture, even after only one single runthrough.

# AWM114-100 & AWM130-100: OUR NEW COMPACT ALL-ROUNDERS

As a compact alternative to the other larger models, our new AWM114-100 and AWM130-100 automatic crossfeed grinders impress with a high output capacity and a powerful suitable for smaller businesses. Both the AWM114-100 and drive. They achieve a level of quality that surpasses typical industry standards.

Both automatic crossfeed grinders feature a perfect interplay of feeding and working worm. Depending on the requirements, these models can be used for grinding only or for simultaneous mixing and grinding.

Thanks to their compact design and space-saving external dimensions, the automatic crossfeed grinder is also the AWM130-100 can be fully operated from the front, making it easy to load the machine in an ergonomic manner.

We prioritize the user's experience and are always focused on optimizing usability and safety.

Best quality - Made in Germany.

Perforated plate-Ø	152	mm
Hopper volume	360	L
Output [with perforated plate 3mm*]	~3750	kg/h
Motor main drive / IP55	30	kW
Motor mixer drive / IP55	1,5	kW
Motor feeding drive / IP55	1,5	kW

### **EQUIPMENT EXTRAS**

Variable speed (stepless) of working worm 30kW / mixing time preselection / hoist feed loader FD200 / attached swivel arm feeding HFD 200 / trolley for

Cutting system	Unger E130	
Perforated plate-Ø	130	mm
Hopper volume	~360	L
Output (with perforated plate 3mm*)	~3000	kg/h
Motor main drive / IP55	15	kW
Motor mixer drive / IP55	1,5	kW
Motor feeding drive / IP55	1,5	kW

### **EOUIPMENT EXTRAS**

Precutter retain unit / increased motor capacity 22kW / variable speed (stepless) of working worm 15kW and 22kW / mixing time preselection / hoist feed loader FD200 / attached swivel arm feeding HFD 200 / trolley for equipment and tools / KOLBE dynamic separating system KDS130

# AWW160-240 Article number 3800465

Cutting system	Unger G160	7
Perforated plate-Ø	160	mm
Hopper volume	~360	L
Output (with perforated plate 3mm*)	~4000	kg/h

# KDS-SEPARATING SYSTEM

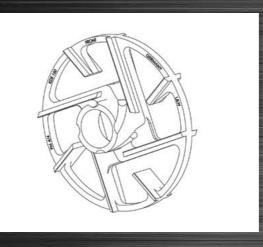

# **KOLBE DYNAMIC SEPARATING SYSTEM**

The Kolbe Dynamic Separating System – abbrv.: KDS – is it can separate. The outstanding separation results, even representing the next level of minced meat processing. During its development we paid great attention to achieve the best possible results through the optimal interaction of its components. The KDS stands out with its very high construction quality and the extensive range of products

with challenging meat varieties like poultry and beef, elevate the quality of your meat processing to the next level. Our KDS is versatile and compatible with the following cutting set sizes:

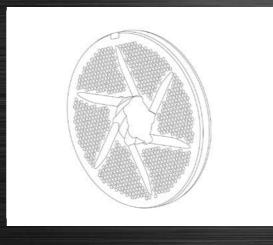

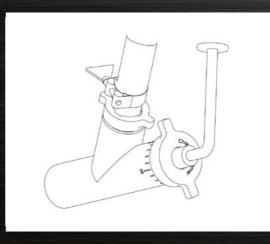

# SEPARATING KNIFE

Our KDS system is equipped with a cutting knife designed by us. The composition of this special separating knife and the perforated disc creates an active discharge of the separated product.

# CUTTING HOLE DISC

The perforated disc is available in the following hole sizes: 2 mm, 2.5 mm, 3 mm, 3.5 mm, 4 mm and on request with a diameter of 5 mm. The innovative notches make it possible to process products more gently than ever before. Because less pressure means less heating and thus a

# VALVE AND LEVER

Due to the dynamically adjustable discharge, the KDS system achieves maximum variability of product discharge. That means, no matter in which direction the separated components are to be discharged: With the KDS system, this becomes child's play and is suitable for every customer.

# NOTES

# CONTACT & IMPRINT

Are you interested in one of our machines or other products? Do you need advice on the individual models? Or do you need more information on the technical specifications and various features?

The team at **Kolbe Foodtec** is there for you and will gladly help you further.

You can reach us via e-mail or by phone:

**E-mail:** sales@kolbe-foodtec.com **Phone:** +49 (0) 7308 - 96 10 - 0

Office hours: Mo-Thu 7:30 AM - 4:30 PM

r 7:30 AM - 1:00 PM

We are looking forward to hear from you!
